How to Use: ✂ —————

This is a Night Routine Board designed to help children follow their daily tasks step by step. Print the board and the action cards, then cut, laminate, and add Velcro. Place five routine cards on the board in the order you'd like your child to follow. As each task is completed, the child can move the mini action card to the "All Done" area, making the routine fun and easy to track.

Action Cards:

These are your Action Cards. Print, cut, laminate, and add Velcro to the back.
Choose the cards that match your child's routine and place them on the board.
